

THE THREE CRUCIAL QUESTIONS

The Universal Medical Model (Old Paradigm)

1. What's Wrong With This Person?
2. How Did They Get This Way?
3. How Can I Fix Him/Her?

The Radical Living Model (New Paradigm)

1. What is Perfect About What is Occurring for this Person?
2. How is the Perfection Revealing Itself?
3. How Can I Get the Person to See the Perfection In the Situation.

The challenge is how and at what point in the process to begin making the transition from the Medical Model to the Radical Living Model with your client for he or she will, in the beginning at least, have the (normal default) medical model in mind.

Warning: The medical model is so ingrained in everyone that you will be all the time tempted to default to trying to come up with a solution to their problem. Stay conscious of the three questions.
